## Rent A Toll® announces 2014 Car Rental Show contest winner

**CARROLLTON, Texas, April 22, 2014** - Rent A Toll®, the premier provider of Pass24® prepaid tolling programs and other tolling, parking, red light and vehicles violation processing solutions announced the winner of the Apple iPad 2 at the Las Vegas Car Rental Show at the Rio Hotel on April 8, 2014.

Dave Nabity, Regional Vice President of Advantage Rent A Car® was the lucky winner at the show last week. He was one of more than 800 car rental professionals that attended the conference and was entered to win just by stopping by the Rent A Toll® booth.

Celebrating its 25th year, the Annual Car Rental Show is a two-day conference held in Las Vegas that focuses on industry updates, new services, technologies, customer retention and improving bottom-line results for both independent and franchise car rental operators.

The conference brought hundreds of new and established car rental operators to Rent A Toll's trade show booth to learn how they could reduce operation costs and turn an operational problem into a profitable solution. Rent A Toll® provides prepaid and post-billing tolling solutions that eliminate toll road violations and provides rental car customers with a safe and convenient service that can be added to any car rental contract.

Rent A Toll's solutions enable car rental customers access to toll roads without incurring additional cost from toll violations, penalties and fees. Rental car customers can opt-in and choose a tolling service provided by Rent A Toll® that allows them toll road access for faster travel times by avoiding long delays in cash lanes at toll booths. Car renters can also access cashless toll roads that have no opportunity to pay with cash or other traditional methods and avoid toll violations, fines, penalties and administrative fees.

Additionally, car rental operators had the opportunity to learn more about Rent A Toll's new red light, parking and vehicle violation processing services operated by Violation Management Services. Combined, Rent A Toll® and Violation Management Services can add thousands of new dollars to the car rental operators bottom line every month, eliminate operation costs and provide a no-cost solution for car rental companies.

To Learn more about Rent A Toll® s services go to [www.rentatoll.com](http://www.rentatoll.com) or call 1-877-509-9506 and ask for a no risk consultation today.

Car Rental Show Winner (l to r): Jason Tirrell, Violation Management Services; Dave Nabity, iPad 2 winner; Bernard Drewery, Rent A Toll.

## **About Rent A Toll®:**

Rent A Toll® is a privately held technology services company located in Carrollton, Texas, that specializes in automated toll payment solutions for car rental companies, car renters, and corporate fleet administrators. The company was founded in 2004 on the premise that every traveler's time is valuable and that every traveler should have valid access to toll road express lanes. All of Rent A Toll's® toll solutions focus on guaranteeing toll payments to the toll authorities, eliminating rental car and fleet vehicle violations, and providing safe and convenient access to express toll lanes for the traveler.

## **About Violation Management Services Ltd.:**

Violation Management Services Ltd. brings more than 20 years of experience and expertise in the processing and administration of parking tickets, traffic violations, and tolls. VMS has assisted individual renters and fleet companies alike in reducing the inconvenience and financial liability parking tickets, traffic violations, and tolls create. VMS's intellectual property and processing software (VTS) allows us to offer the most comprehensive system available.

VMS has a history of fair and successful resolution for all parties involved. We strive to provide the best customer service available, while providing results that promote customer satisfaction for both the company, fleet operator and the driver.
